

WHINN Round Table:

Denmark has a four-year trial for prescribing medical cannabis. *How can we make the best of it?*

October 11th, at 9.55 – 16.20

9.55 – 10.05 Welcome
By moderator, dr. med. [Hans Peder Graversen](#)

Session: What are we talking about

- 10.05 – 10.20 Danish Ministry of Health: Reasons for the four years trial; expectations and perspectives
[Anna Skat Nielsen](#), Head of Division, The Danish Ministry of Health, Office for Pharmaceutical Policy.
Danish Ministry of Health.
- 10.20 – 10.35 The international perspective: What works and how to make it work.
[Mark Ware](#), world-renowned pain specialist and medical cannabis researcher, with around 20 years of research in medical cannabis.
- 10.35 – 10.55 *Round Table Dialogue*: “What to do and how to do it”.

11.35 -12.30 Session: How does medical cannabis work? Two science projects

- 11.35 – 11.40 Introduction to the session
Moderator Hans Peder Graversen
- 11.40 – 11.55 “It is the combination of active and passive substances that makes the plant different than chemical produced medical cannabis”. Introduction to science project.
[Rime El-Houri](#), Assistant Professor, SDU Chemical Engineering
- 11.55 – 12.10 “Can parts of the cannabis plant prevent multidrug resistance”. Introduction to science project.
[Janne Kudsk-Klitgaard](#), Associate Professor, Institute of Clinical Research, SDU
- 12.10 – 12.30 *Round Table Dialogue*: Which science- and research projects are being done within cannabis in a health perspective? And how will they affect the use of medical cannabis?

12.30 – 13.30 LUNCH

13.30 – 14.00 WHINN TALK

14.10 – 15.00 Session: What can we expect?

- 14.10 – 14.15 Introduction to the session
Moderator Hans Peder Graversen
